

Really?

Is **that** your password?

These are the Top 50 most commonly used passwords

Look familiar? or did you use something less obvious?

What if we made the list a little more extensive?

Did you know that **91%** of users have used a password from the Top 1000 list? Source: Xato.net

Well EVERY hacker finds that out on their first day!

96%* of all data breaches were easy to pull off

97%* of all data breaches are easily avoidable

Do you really want to make it this easy?

*Source: 2012 Data Breach Investigation Report (DBIR) from Verizon Enterprise Data Risk & Incident Sharing (VERIS)
