# DON'T install that:

Free Game

Free Browser Toolbar

Free "Speed / RAM Booster"

Free AntiVirus / Malware Scanner etc.

# Check it on Google first!

If the first page of results begins with:

"How to remove _____"

"_____ crashed my computer"

"_____ is a scam / virus"

"_____ installed malware on my machine

# What does this tell you?

**When in doubt. Ask the professionals**

**SCWOA - cleaning up malicious software from company computers since 1991**
